UNDERSTANDING THE BATTLE

The Enemy at Work

The enemy is the Devil who comes to steal, kill and destroy. In Australia, his objective is to destroy the God-ordained Judaeo-Christian culture and bring his totalitarian government upon the land. His strategy is as follows:

- General Strategy: **To create conflict and disorder by provoking, exploiting and creating social contradictions; pitting class against class.** (This is typical Marxism – post Modernism is Marxism reinvented).
- Specific Strategy in Australia: To create a Godless secular-humanist sect and bring it into sharp conflict with those holding to the Judaeo-Christian position.

Satan's progress to date: The secular-humanist forces are growing by 10% per annum; they reached 30% in 2016 and are likely to have reached 40% in 2019. They are united around fabrications like 'evolution', 'climate change', 'alternative gender', 'eroticism under the guise of sexual preference' and giving credence to indigenous culture. The public rhetoric is already becoming **totalitarian**, e.g.

- "We **demand** that Senator Anning returns funds he spent attending a conservative (labelled 'racist' and 'far right') public meeting recently". (*Who is 'we'?*).
- "Christian Schools **must** employ homosexual teachers and take homosexual and transgender students or lose their public funding". (*Why – we pay our taxes?*)

What We are Called to Defend

Ordered Life as defined by the Judaeo-Christian Culture is proven to be:

- Inclusive, supportive and developmental for the individual throughout their life
- Have the potential when combined with a Judaeo-Christian ethic, to maximise an individual's chance of achieving fulfilment and success in life
- Superior to all other constructs in ensuring good citizenship and building a shared economy.

How are we doing?

The Current SWOT analysis is as follows:

Strengths: Christians have established structures that could carry the battle forward.

Weaknesses: The number of people calling themselves Christians is declining by over 2% per annum. The church is sectarian, uncertain as to what it believes (and

becoming more so), passive and stricken with syncretism – most Christians believe that Godless evolution is true, and homosexuality and gender politics is totally accepted in some quarters. Only a small portion of Christians are born again and capable of a Spirit-led life which is **our only resource** to overcome the enemy (Matt. 16:18-19).

Opportunities: This is a spiritual battle and we have God on our side; greater is He that is in us than he that is in the world.

Threats: The enemy's approach is extremely subtle; **most Christians do not recognise it.**

Required Responses

THE CALL: We need to come together as one fighting force. Christians in Australia number twelve million; surely, we can raise one million that hold to a Biblical account of a Judaeo-Christian culture. That will be more than enough to turn the tide.

UNITY: We need to define and agree on what we mean by a Judaeo-Christian culture, i.e. think and speak the same thing (Phil.2:1-4). Lenin said: "If there had been a thousand men in Petrograd that knew what they wanted to defend we (Communists) would not have succeeded in taking the land". **Completing the Manifesto is crucial!**

INTELLIGENCE: We need to understand how the enemy acts and learn how to recognise it in the field. NB These are the same spirits operating that Joshua fought against and the sun stood still (Joshua 10); the Holy Spirit called them the 'persuasive voices. We need to create an awareness amongst the brethren as to how these spirits operate.

STRATEGIES: We need to develop prayer groups across the country to seek specific strategies from the Holy Spirit. The current battle is in the Private/Christian Schools; we need to start there

ACTION: Our actions should be contrary to Marxist behaviour; they should be directed towards **resolving conflict and restoring order and peace** to the land. We need to be "wise as serpents and harmless as doves". Action will be dependent on raising **numbers**; individuals and small lobby groups cannot win this battle, they can only fight rear-guard actions and the enemy is very adept at knowing how to keep us running around in circles.
